Election/Restrictions

A telephone call the Applicant's representative to Switzerland was not practical to discuss an election to the restriction requirement below. An attempt to communicate via electronic mail supplied by the Applicant's attorney resulted in a system error noting an undeliverable message. In light of the fact that restriction requirement is being made after a first Office Action, the Examiner will weigh the Applicant's response should the Applicant elect with traverse. The Examiner, however, is strongly urging the Applicant to consider election without traverse. The Examiner firmly believes it would be prudent to restrict at this time to effectively prosecute to allowance or abandonment the Applicant's invention.

Should the Applicant's representative desire to talk directly about this before making a decision, the Examiner may be contacted directly via email (robert.pond@uspto.gov) to establish a telephonic interview time and date, or the Examiner may be called directly- whichever is more convenient.

The above does not in any fashion convey the Examiner's opinion regarding allowance or sustaining rejection at this time.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, 8-14, 16-22, 24, 36, and 38-42 drawn to an intermediary monitoring buyer and seller transactions, classified in class 705, subclass 26.
- II. Claims 25-35, drawn to system for financing credit, classified in class 705, subclass 35.

Art Unit: 3625

III. Claims 43-60, drawn to return product processing, classified in class 705, subclass 10.

Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention has separate utility as noted above. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3625
